I agree with Andy – a disc grinder will work. I have one and it will need electricity – I don't have a battery operated one....

Subject: Request assistance with locks

Augie,

We returned the first bolt cutter to Home Depot and purchased the heavy duty one. However, the guys were still unable to cut 3 locks. Andy says it needs a disc cutter. Is there any way you can help?

We really need to be there to make sure they don't cut one of the new locks. Please let me know.

All of the other locks have been changed. The WD-40 worked well with the rods, but we will try and eventually replace them.

We sprayed inside of the carts with spider killer due to the infestation of the black widows.

Before we start using the carts, we will also need to pressure wash them.

That's the update for now.

Best regards,
Lorena Parker
